Helping Patients with...

Erectile Dysfunction

Low Testosterone

& Premature Ejaculation

The Problem: \$55-\$65 per tablet? ED shouldn't stand for Expensive Drug. \$500 prescriptions for Low T? There is already enough pressure to perform, don't add to it. The active ingredients (Sildenafil (Viagra) and Tadalafil (Cialis)) are available in other, easily affordable preparations.

The Solution:

Erectile Dysfunction

Sildenafil 150mg and Tadalafil 75mg Troches:

- \$5 Each Troche (Scored so easily split in half for 2 doses from 1 troche)
- Any Strength(s) Available

**** Brand New Combo Troche ****

Sildenafil 50mg/Tadalafil 10mg

- The quick action of the Sildenafil combined with the longer half life of Tadalafil in 1 sublingual troche

Low T

Topical creams are your solution to eliminate all the PAs and patient complaints about the high cost of Androgel, Axiron, Testim, etc etc

- Testosterone Creams and Testosterone/DHEA creams are available in any customizable dose to meet specific patient needs

- Cost varies based on dose, but stays under \$100 per month of treatment
